Make It Monday

Ladybug Garden Rocks

Welcome to Incredible Insect Week! This week we're excited to learn all about our favorite creepy crawlers! What's your favorite kind of bug? Today we're making Ladybug Garden Rocks! Look for the supplies in the pick-up activity bags!

1. Here are the supplies you'll need – you can find them in the activity bags: rock, acrylic paint swabs, and googly eyes.

2. Use one of the swabs to paint your rock with the colored acrylic paint.

3. Use the black acrylic paint to paint the head and spots.

4. Glue on the googly eyes.

5. Optional: Mod podge it for extra protection.

Other fun activities you can try!

Stick / Pipe Cleaner Caterpillar

Find a stick and wrap a pipe cleaner around it. Glue a pom pom on for the head, and don't forget the googly eyes!

Fingerprint Bug Jar

This sheet is in your activity bag. All you need is some paint and your fingers! Create your own bugs, and feel free to add details with marker.
